

### **Vestry Papers issue on: What do you hope The Episcopal Church will look like in 2050?**

January-February 2023

Theme: As we entered 2023, at ECF we wanted to start the year by asking – “What do you hope the Episcopal Church will look like in 2050?” In response, we received comments, blogs, articles, videos, even an illustration! These issues were dedicated to our collective and hopeful dream for the future of our beloved Church.

### **Vestry Papers issue on: Disaster Preparedness**

March-April 2023

Theme: While most disasters occur unexpectedly, there is much we can do to prepare ahead for our physical, emotional and even spiritual protection and wellbeing. As we are living in times when unspeakable tragedies are transpiring every day – natural and human-made – we cling to our God, while we do all we can to affect change and protect our families and communities. These issues were full of practical ideas and resources to help get us started on this difficult but important journey.

### **Vestry Papers issue on: LGBTQ+ Pride**

May-June 2023

Theme: In these issues, our goals were honoring the LGBTQ+ community in the Episcopal Church and beyond, and bringing our readers with us as we embarked on a journey of understanding, inclusion and acceptance through Christ’s eyes, honoring the sacred worth of every individual.
